

WHAT YOUR SPONSORSHIP SUPPORTS:

Supporting people with disabilities
to live a good life by being valued included
and by having real choice.

MAKING A DIFFERENCE

All funds raised by you goes to helping local people and families with disabilities. This help and support can be in many ways, from making sure someone has a voice in sometimes difficult and life changing meetings, to supporting families gain much needed accessible equipment.

Embrace are an independent charity that help people of all ages including young children who can have very complex support needs.

HOW DO WE IMPACT A LIFE

Be Valued - Being valued is about having a positive impact within our community and making sure we are valued by the people around us.

Sustainable Futures - Embrace help to realise what's important for people when creating support plans, and we not only look into the present needs, but also changes for the future and dreams and aspirations that give chances for personal growth.

Better Outcomes for Families - We support families in meetings, attending appointments, completing forms, offer advice and above all be a voice to help families and individuals get better outcomes to improve quality of life.

Building Communities - Many people with disabilities are very isolated, the only people in their lives are those paid to be there. This can not only have a profound impact on someone's social skills but increases the risk of abuse.

Reducing Loneliness and Isolation - really makes a difference to someone's life, having someone to support you to take them small steps back into the community you belong, can effect true life changes for the individual. Embrace is there to offer this unique support and truly empower people to become active members of their community once more.
